Module Verification Software Modification

To Be Performed By: Agilent-Qualified Personnel or Customer

Parts Required:
Module Verification Software part number 70908-10008 (Revision B.02.00)

Situation:
When performing the 70908A Flatness Calibration Test a screen prompt instructs the user to connect a jumper between TP4 and TP5. This has led to some confusion as to where these test points are located.
