

HP MODEL 8690A SWEEP OSCILLATOR

Serials Below 732-01311

FAN NOISE REDUCTION

Fan noise in HP Model 8690A Sweep Oscillators, Serials below 732-01311, can be reduced in two ways.

1. A Fan Hole Cover, HP Part Number 08690-0019, can be installed inside the Fan Grill. The new cover reduces high frequency fan noise.
2. If the fan needs replacing, a new, quieter tubeaxial Fan, HP Part Number 3160-0097, can be installed as a direct replacement for the old fan.
