E4200b Form 7 Broadband Series Tester**Serial Numbers:**

E1497A below US34002131

E1498A below US34002028

V743A VXI Controller Modules**Situation:**

The later E4200B Form 7 mainframe had a display fitted which early V743A (E1497A and E1498A) controllers were not compatible with.

Solution / Action:

Do not use older controllers with later Form 7 mainframes. There is no modification available to make these earlier controllers work with later E4200B mainframe displays.

DATE: August 2000
