ADDITIONAL INFORMATION:
No impact on service inventory

Situation

For the Serial Number listed, the value of “Float Voltage Rating” has printed incorrectly on the label. The $\pm 2000V$ label is incorrect and should be replaced with $\pm 1000V$ label as shown in Figure 1.

However, there is no impact on the product performance.

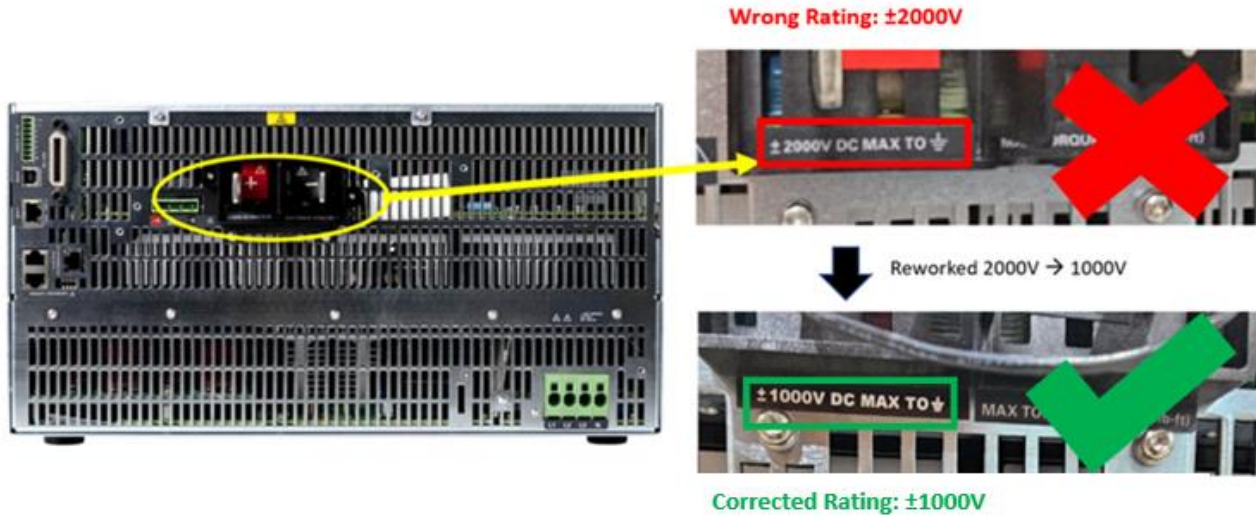

Figure 1: Incorrect label

Solution/Action:

When sending the instrument to the service centre for calibration or repair, label will be changed accordingly.
